Formaldehyde Emissions Compliance Declaration

CARB ATCM Phase II · U.S. EPA TSCA Title VI (40 CFR Part 770)

01 DECLARATION

Forest Bright Wood Industry Co., Ltd declares that all composite wood products incorporated in its architectural flush wood doors — including particleboard cores, structural composite lumber, high density fiberboard crossbands and faces, and composite mineral cores — comply with the formaldehyde emission standards of:

- **California Code of Regulations, Title 17, § 93120** — Airborne Toxic Control Measure to Reduce Formaldehyde Emissions from Composite Wood Products (CARB ATCM Phase II);
- **TSCA Title VI, 40 CFR Part 770** — Formaldehyde Emission Standards for Composite Wood Products.

02 BASIS OF COMPLIANCE

- All composite wood panels are purchased exclusively from mills certified by an EPA TSCA Title VI / CARB-approved **Third-Party Certifier (TPC)**;
- Panel certificates, mill declarations, and purchase records are maintained by Forest Bright and are available for review with project submittals;
- Finished doors are labeled in accordance with 40 CFR § 770.45 as products fabricated with compliant composite wood products;
- No added urea formaldehyde (NAUF) and ultra-low-emitting formaldehyde (ULEF) constructions are available on request.

03 SCOPE

This declaration applies to all Forest Bright flush wood door models in the PB, SCL, CPB, MN, HC, and TPB series manufactured on or after January 1, 2026, at the facilities of Forest Bright Wood Industry Co., Ltd, Shijiazhuang, Hebei, China.

04 AUTHORIZATION

SIGNATURE	NAME & TITLE	DATE
Li Long	Long Li, General Manager	July 13, 2026

This declaration is issued by Forest Bright Wood Industry Co., Ltd on the basis of supplier certifications and internal records current as of the effective date, and is reviewed annually. For chain-of-custody documentation on a specific project, contact info@forestbright.com.
